

Amendments to the Specification:

Please replace the paragraph 24 on page 5 with the following amended paragraph below:

FIG. 1 is a block diagram illustrating an exemplary data processing system **100** adapted for implementing an embodiment of the invention. The data processing system **100** includes an input device **110**, a central processing unit or CPU **120**, memory **130**, a display **140**, and an interface **150**. The input device **110** may include a keyboard, mouse, trackball, remote control, or similar device. The CPU **120** may include dedicated coprocessors and memory devices. The memory **130** may include random access memory (“RAM”), read-only memory (“ROM”), or disk devices. The display **140** may include a computer screen, terminal device, or a hardcopy producing output device such as a printer or plotter. And, the interface **150** may include a network connection including an Internet connection. The data processing system **100** is adapted to perform program editing in accordance with the present invention.

Please replace the paragraph 28 on page 7 with the following amended paragraph below:

The data processing system **100** includes computer executable programmed instructions for directing the system **100** to implement the embodiments of the present invention. The programmed instructions may be embodied in one or more software modules **170** resident in the memory **130** of the data processing system **100**. Alternatively, the programmed instructions may be embodied on a computer readable medium (such as a compact disc (“CD”) [[disk]] or floppy disk) which may be used for transporting the programmed instructions to the memory **130** of the data processing system **100**. Alternatively, the programmed instructions may be embedded in a computer-readable, signal-bearing medium that is uploaded to a network by a vendor or supplier of the programmed instructions, and this signal-bearing medium may be downloaded to the data processing system **100** from the network by end users or potential buyers.
